MESSAGE CENTER

The average PNM residential customer uses about 600 kWh per month. The more electricity you use each month, the more it costs. Your electricity usage for this billing period means that part of your electricity is subject to Block 1 (1-450 kWh), Block 2 (451-900 kWh) and Block 3 (900+ kWh) rates plus fuel and other fees. For more information regarding Block Rates, refer to the current electricity charges portion of your bill or visit PNM.com/RATES. If you have any questions regarding how your bill is calculated, please contact PNM to speak with a Customer Service Representative at: 888-DIAL-PNM. For tips on how to reduce your energy usage, go to PNM.com/tips

If you need help paying your PNM bill, we may be able to help pay down, or possibly pay off, your balance. Visit PNM.com/help to learn more and apply for help today.

Space heaters can be popular this time of year, but they can be dangerous to use and can cost you more than most other heating. One space heater on high for 6 hours a day can add approx. \$40 or more to your PNM bill. If you're going to use one, use it sparingly and turn it off before leaving the room.

Severe winter storms may cause power outages. Report an outage you are experiencing at PNM.com/outage or by calling 888-DIAL-PNM (888-342-5766).
